# CITY OF WARWICK, R. I.

WARWICK has changed from an old town to a young, progressive city, 33 6/10 square miles in area, fringing along the shores of Narragansett Bay on the East and South, and along the banks of the Pawtuxet River on the North and West. It is located on the N. Y., N. H. & H. Railroad, 10 miles south of Providence, 55 miles from Boston, 50 miles from New London and 165 miles from New York. It is within easy trucking distance of all Providence terminal and harbor facilities.

Its population of over 29,000 jumps to 45,000 during the Summer when Warwick becomes the vacation land of Rhode Island with its summer resorts, amusement parks and bathing beaches.

In the western section of the city world famous industries have flourished. Beside textile finishing plants and bleacheries, Warwick has establishments producing fine worsted suitings, silk cloth, rayon, stapling machines, wire stitchers, paper fasteners, brass casting, brass mouldings, pipe fittings, cement blocks and well curbs, lally-columns, feather boards, boats, pencils, soaps, starch and mushrooms.

The shell fish industry is important. Market gardens, the dairy and poultry business prosper.

Warwick is primarily a residential city of over 12,000 single homes.

The State Airport is situated at the geographical center of the city. There are 1471 highways within the city limits. The principal ones have four lanes. The transportation facilities are very good. The typical destinations of freight shipping are: 1st morning: New York, Philadelphia, Baltimore, Boston; 2d morning: Pittsburg, Portland, Albany, Buffalo; 3d morning: Chicago, Cleveland, Detroit, Atlanta.

The total assessed valuation exceeds $46,702,393.00. The tax rate was $24.00 in 1930; today it is $23.00 per M. The total U. S. income returns have about doubled since 1930. 90% of the families live in single dwellings. The percentage of home owners to total families is in excess of 66.4 compared to 40.8 for the State.

Fire Protection—7 Volunteer Companies.

Schools—19 Grammar and Elementary, 3 High and Junior High.

Warwick is the fastest growing community in New England. Commercial engineers have estimated that the population of Warwick in 1960 will exceed 47,000 people or 13,000 families.

The wisdom of an investment in Warwick is founded on two facts: the home will be in healthful and peaceful surroundings, the business enterprise will develop with a rapid growing community.

# Advertising Costs Money

●

One of the stock alibis of persons who do not advertise or register their business strongly in the Directory is that advertising is an expense.

Of course it is. So is window trimming, lighting, heating, telephone service, postage, rent, cost accounting, price tags and almost everything else that helps to sell merchandise or service.

Yet no business man attempts to get along without these necessities. And most of them are advertising in one form or another.

Attractive windows are effective advertising only to those who pass the merchant's place of business. An inviting interior, good lighting arrangement and price tags reach only those who come through the door.

But no merchant who wants to maintain even his present volume of business, to say nothing of increasing it, can hope to continue for very long, in the face of advertised competition, without some aggressive program to attract NEW customers —and when getting them also serving them with a directory handy for use.

Of course it costs money to advertise. But it may easily cost more money to lose that volume of business which is necessary to operate at a profit.

An intelligently planned and executed advertising campaign in the Directory is within the reach of every merchant, professional man and institution. The Directory is used thousands of times annually, and costs less than one hundredth of a cent per user —the least expensive publicity ever devised.

FOR LIST OF ABBREVIATIONS SEE PAGE 48

WIFE'S NAME—Appears in parentheses following husband's name when information is obtainable.

⊙ Home owner. * Summer resident. These symbols following a name indicate that we have received information during the canvass that the person is a home owner, summer resident or both, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

SUMMER RESIDENTS—This list is not complete due to the season at which time the information canvass was made.

# Advertising Costs Money

One of the stock alibis of persons who do not advertise or register their business strongly in the Directory is that advertising is an expense.

Of course it is. So is window trimming, lighting, heating, telephone service, postage, rent, cost accounting, price tags and almost everything else that helps to sell merchandise or service.

Yet no business man attempts to get along without these necessities. And most of them are advertising in one form or another.

Attractive windows are effective advertising only to those who pass the merchant's place of business. An inviting interior, good lighting arrangement and price tags reach only those who come through the door.

But no merchant who wants to maintain even his present volume of business, to say nothing of increasing it, can hope to continue for very long, in the face of advertised competition, without some aggressive program to attract NEW customers —and when getting them also serving them with a directory handy for use.

Of course it costs money to advertise. But it may easily cost more money to lose that volume of business which is necessary to operate at a profit.

An intelligently planned and executed advertising campaign in the Directory is within the reach of every merchant, professional man and institution. The Directory is used thousands of times annually, and costs less than one hundredth of a cent per user —the least expensive publicity ever devised.

YOU LIKE to Patronize those Concerns Who are in Business to Stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern city directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

IF YOU ARE NOT ADVERTISING YOUR BUSINESS IN THE DIRECTORY, MAY WE EXPLAIN HOW AND WHY IT WILL PAY YOU?

**Support Your Government in This National Emergency.**
**Build for Victory by Buying**
**DEFENSE SAVINGS BONDS and STAMPS.**

YOU LIKE to Patronize those Concerns Who are in Business to Stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern city directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

IF YOU ARE NOT ADVERTISING YOUR BUSINESS IN THE DIRECTORY, MAY WE EXPLAIN HOW AND WHY IT WILL PAY YOU?

# Advertising Costs Money

One of the stock alibis of persons who do not advertise or register their business strongly in the Directory is that advertising is an expense.

Of course it is. So is window trimming, lighting, heating, telephone service, postage, rent, cost accounting, price tags and almost everything else that helps to sell merchandise or service.

Yet no business man attempts to get along without these necessities. And most of them are advertising in one form or another.

Attractive windows are effective advertising only to those who pass the merchant's place of business. An inviting interior, good lighting arrangement and price tags reach only those who come through the door.

But no merchant who wants to maintain even his present volume of business, to say nothing of increasing it, can hope to continue for very long, in the face of advertised competition, without some aggressive program to attract NEW customers —and when getting them also serving them with a directory handy for use.

Of course it costs money to advertise. But it may easily cost more money to lose that volume of business which is necessary to operate at a profit.

An intelligently planned and executed advertising campaign in the Directory is within the reach of every merchant, professional man and institution. The Directory is used thousands of times annually, and costs less than one hundredth of a cent per user —the least expensive publicity ever devised.
